

IXCONNECT VARIANTOOL-N DRILLING JIG

- > For drilling Ø 3 or 5 mm holes consistently at 32 mm intervals (Ø 8 mm and 10 mm dowel holes, not included)
- > The jig allows for an inset distance from the front carcase edge of 37 mm and from the back edge of 69 mm
- > Integral sliding positioning tabs ensure consistent drilling locations
- > An ideal addition to the other Unitool drilling jigs, for drilling series of holes in a line or groups of holes according to System Varianta 32

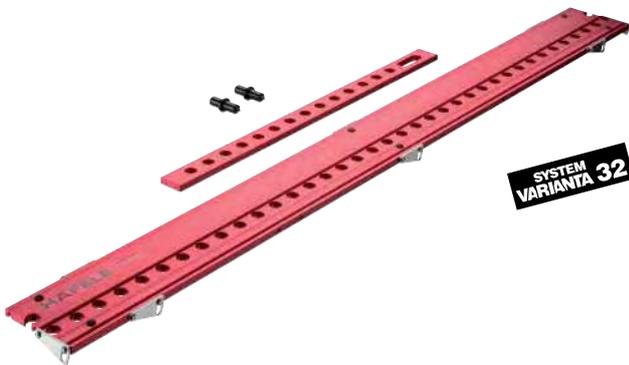

The drilling jig is moved and fixed with the locating pin for longer rows of series drilled holes.

- 1 Front edge of cabinet
- 2 Rear edge of cabinet
- 3 Profiled aluminium rail
- 4 Depth gauge (not included)
- 5 Stop plate
- 6 Marking gauge (not included)

Depth and marking gauge are not included, additional parts are shown on page 45A
