IXCONNECT G 13/20 REAR PANEL CONNECTOR

One-piece connector. For quick and easy tool-free installation, plug fits into a groove.

- > Can be used as a rear panel connector in small furniture
- > Can also be used for stabilising wooden drawer base panels
- > Simple, tool-free installation; plug fits into groove and wedged in by the rear panel
- > No additional drilling necessary
- > For concealed applications; the connector is installed at the rear of the panel and is therefore invisible from the front

Rear panel connector G 13/20

- > Application: For fastening the rear wall in small furniture, or for stabilising wooden drawer base panels
- > For wood thickness from 12 mm
- > Installation: For insertion into a groove
- > Plastic
- > Order qty: Multiples of 100 pcs

IXCONNECT S 15/25 REAR PANEL CONNECTOR

One-piece connector. For quick and easy installation, screw fixes from the front.

- > Screw fixing takes place from the front which allows mounting of large furniture items at the final installation location
- > Pre-positioning possible
- > Guiding and mounting aid
- > One-piece due to pre-mounted screw
- > Processing of rear panel not required
- > Removable

Rear panel connector S 15/25

- > Application: The rear panel connector is pre-inserted into a drill hole in the groove and serves as a guiding and mounting aid for the rear panel. When the screw is tightened, the rear panel is pulled forwards and the connection reinforced
- > For wood thickness from 15 mm
- > Groove depth ≤ 6 mm
- > For drill hole Ø 15 mm
- > Rear panel thickness 2.5-3.5 mm
- > Installation: For screw fixing from the front
- > Material: Plastic
- > Order qty: Multiples of 100 pcs
