Herkules 120

Sliding door system for room dividers

Max. door weight 120kg. Min door thickness 22mm
Features

Herkules 120 is a heavy duty sliding door system for use with single room dividing doors.
It is ideal for wooden or MDF doors with a weight up to 120kg.
The system is suitable for domestic or medium commercial applications. Runs on wheels on ball bearings to ensure smooth and quiet action.
Options available: Symmetric Kit, Silent Stopper

- Strong aluminium top track with pre-drilled holes for easy installation
- Track can be ceiling/soffit mounted or wall hung (with optional wall brackets)
- Strong hangers with wheels on ball bearings for longer life and extra smooth and quiet running
- Clear polycarbonate bottom guide - almost invisible when installed
- Range of options including wall brackets, spacers and pelmets
- Extra Door Kit (without track) available for additional door
- Tested to over 100,000 cycles

Herkules Glass

Sliding door system for room dividers

Max. door weight 100kg. Door thickness 8-12mm

Features

Herkules Glass is a sliding door system for use with single room dividing doors. It is ideal for glass doors with a weight up to 100kg.
The system runs on wheels on ball bearings attached to glass clamps. The innovative clamping system ensures no drilling or cutting of glass is necessary, making installation very easy.
Herkules Glass can be used on domestic or light commercial room dividers and screens.
Options available: Symmetric Kit, Silent Stopper

- Small one piece glass clamp is easy to install and adjust
- No need to cut or drill glass
- Strong aluminium top track with pre-drilled holes for easy installation
- Track can be ceiling/soffit mounted or wall hung (wall brackets included)
- Strong hangers with wheels on ball bearings for long life and extra smooth and quiet running
- Clear polycarbonate bottom guide - almost invisible when installed
- Tested to over 100,000 cycles
