

EXTRACT/SUPPLY AIR VALVE

Description

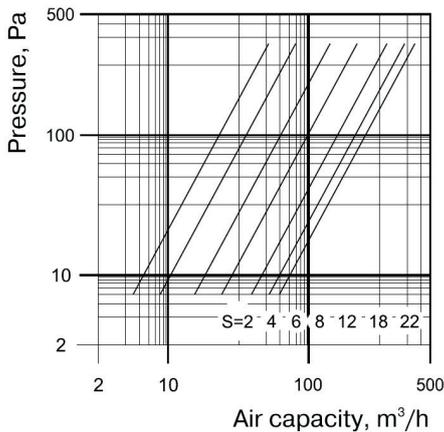

The Domus extract & supply valve is available in 2 different versions and 3 different sizes. The 136-24, -25 & -26 come supplied with a spigot and grab ring for easy installation in a suspended ceiling, whereas the 136-04, -05 & -06 come without for installation directly into the ducting. Each valve is manufactured from gloss white HIPS and has an aerodynamic disc valve design to help distribute the air evenly. The open area of the valve is adjustable by means of a steel threaded bar and can be locked in position with the supplied locking nut.

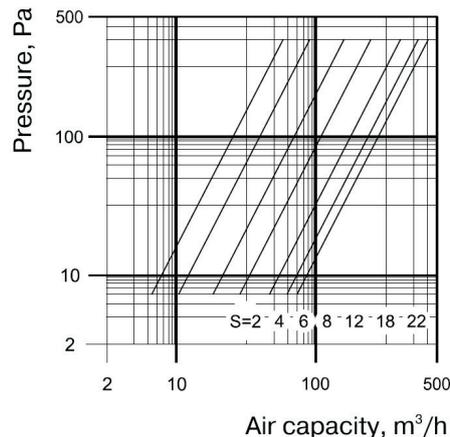

Product code	Dimensions (mm)					Air pass (m ²)	Damper normal pitch (mm)
	D	D1	D2	H	H1		
136-04 & 136-24	100	90	148	58	28	0-0.006	20
136-05 & 136-25	125	110	166	58	20	0-0.008	22
136-06 & 136-26	150	128	200	58	20	0-0.009	23

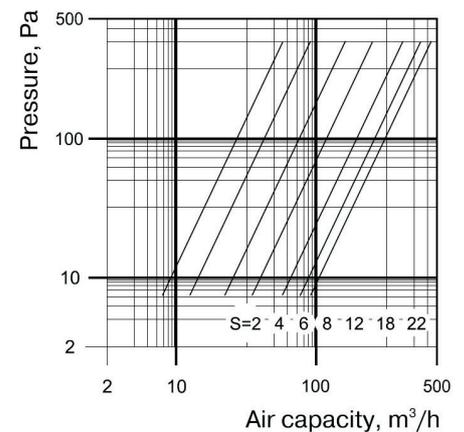

See graphs below for pressure losses at various values of 's'

136-04 & 136-24 (100mm)

136-05 & 136-25 (125mm)

136-06 & 136-26 (150mm)
