

Heat Reflective Sheet

Key Features:

- Heat Reflective Aluminium Sheet will protect the worktop underside from radiant heat.
- Heat Reflective Aluminium Sheet is a 30 micron aluminium foil, coated one side with acrylic, pressure sensitive adhesive. The sheet is backed with strong polythene coated release paper.
- Flame retardant
- High temperature resistance
- Easy tear
- Water resistant
- Aggressive adhesive

Directions for Use:

Peel off the backing paper and adhere to the underside of the worktop, above appliances that give off heat eg. cooker, dishwasher etc.

Consumer Benefits:

A necessary product for all new kitchen installations.

Retailer Opportunity:

Sell with every new kitchen installation.
